

BANKET Collection

INTENDED USE: High table for indoor and outdoor residential or contract spaces (only Compactop is suitable for outdoor purpose).

MATERIALS UTILIZED: High table, table tops made of Compactop or made of chipboard support material and laminate surfaces, ABS edged. Anodized aluminium foot rail, painted metal frame.

FINISHES: Slight differences in shades between different surfaces are possible. Furthermore, in the case of products purchased at different times, despite the use of durable materials for use in outdoor environments, natural-climatic factors can cause slight variations in shades.

CLEANING: No specific maintenance other than normal cleaning is required for Compactop and Laminated tops. The tops can easily be cleaned and disinfected with hot water, steam and any common non-abrasive household detergents and disinfectants, as long as these are not highly alkaline. Just a couple of precautions are necessary: avoid using strong acids and bases and avoid wiping with highly abrasive substances or equipment.

Metal surfaces in steel and aluminum should be cleaned with a soft, damp cloth soaked in hot water. For stubborn stains, mild liquid soap can be diluted in water in moderation. Always dry after cleaning with a soft cloth. Do not use creams or pastes to clean metals, do not use chlorine, bleach or aggressive detergents. Do not use abrasive pastes or sponges that can scratch metal surfaces.

WARNING: This sheet complies with the provisions of the law and of April 10, 1991 n.126 "Rules for consumer information" and with the Decree of February 8, 1997 n. 101 "Implementing Regulation". This article has also passed a series of tests corresponding to the UNI EN 16139 AC: 2013 standard.
